ACCPAC Version 5.1: Software for Better Business

ACCPAC International is a global provider of End-to-End Business Management applications for the SMB Market and offers the most complete set of End-to-End Business Management applications available today. ACCPAC's continuing ability to deliver advanced features and technology demonstrates a commitment to providing highly scalable and customizable accounting solutions.

Reputation

With Advantage Series 5.1, ACCPAC has maintained its reputation as a provider of high-quality, affordable and flexible software. Based upon the evaluation of customer feedback and specific business requirements, many upgrades have been made with the release of version 5.1. Such enhancements to the Advantage Series product line increase its overall usability and functionality, while offering the same stability and reliability unique to ACCPAC.

Flexibility

With ACCPAC 5.1, it's all about choice. The versatile design of 5.1 enables you to build the system you need to grow your business. With unique enhancements designed to meet the needs of today's international marketplace and support for Web Services, Advantage Series 5.1 delivers flexibility and scalability. ACCPAC Advantage Series 5.1 incorporates a flexible design to address today's critical business needs.

CPA Software News states, "ACCPAC Advantage is an exciting product that combines high-quality software engineering with ease of use.

It is built on an open design foundation that provides maximum flexibility, both in installation and use. Advantage has impressive technological features that make it a bench-mark product for other accounting software in this category."

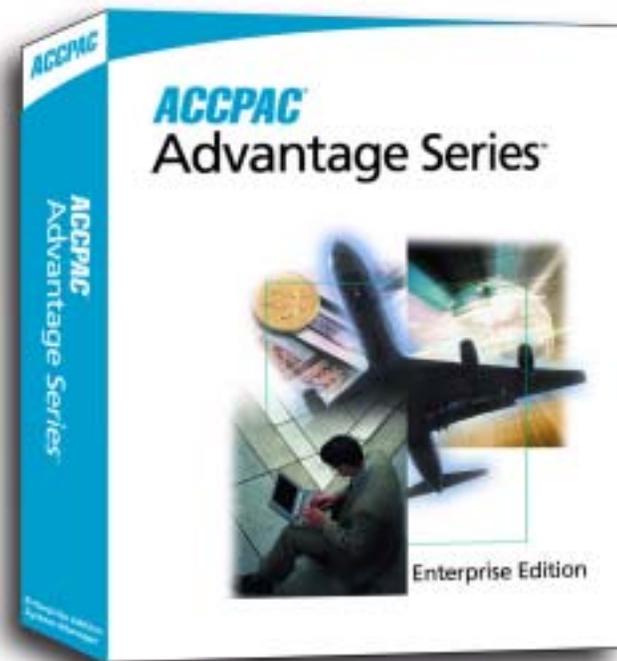

"ACCPAC Advantage has impressive technological features that make it a benchmark product for other accounting software in this category."

--CPA Software News 2003

Scalability

ACCPAC offers you complete scalability through multiple editions of Advantage Series 5.1. You can seamlessly upgrade from one edition to the next as your business requirements expand, and your data and custom reports easily move with you. All Advantage Series 5.1 editions have an identical user interface, making it easy to adapt to the newest edition without costly staff retraining or data conversion. And Advantage Series 5.1 enables data processing to be distributed across multiple servers - so as your number of users increase, multiple servers can share the processing load.

ACCPAC Business Management Applications

Enhanced Flexibility, Total Scalability, Maximum Integration

Advantage Series 5.1:

New Features, Great Benefits

Feature Enhancements

Loaded with impressive new features to enhance the already comprehensive Advantage Series accounting software, version 5.1 is a groundbreaking release. This end-to-end solution adds even more features to make it a cost-effective software package. ACCPAC Advantage Series 5.1 takes flexibility to new heights with new add-on modules available across all four editions for more functionality than ever before. With its versatile design, 5.1 enables you to build the system you need to grow your business. Flexibility and scalability are crucial in today's marketplace and 5.1 is packed with beneficial capabilities that make it highly competitive on both fronts. To request a complete list of ACCPAC Advantage Series 5.1 enhancements, send an email with your name, company information and address to mbogner@pcginc.com.

Advantage Series 5.1 Highlights

Overall enhanced performance

Extensive enhancements in the Finder throughout the system

New email features facilitate document distribution via email

Locked period feature prevents posting to closed periods in sub-ledgers

Ability to print and export posted General Ledger batches

Ability to post bank entries at any time and to control date and period of reversal transactions in Bank Services

Automatically create new accounts by specifying new account segments using the Create Accounts form

Electronic filing of 1099 Miscellaneous Forms

Free ACCPAC Webinars--See What You've Been Missing

ACCPAC offers FREE one-hour webinars designed to demonstrate ACCPAC Advantage Series End-to-End Business Solutions. These webinars, hosted by an ACCPAC product expert, feature demonstrations of products such as ACCPAC Customer Relationship Management (CRM), Human Resource Management (HR) and Warehouse Management systems. Without leaving your desk, you can see firsthand how ACCPAC's End-to-End solutions reach far beyond basic accounting to address all of your business needs.
